

Chaithanya Gudiwada

Sr DevOps Engineer

✉ gudiwada.chaithu@gmail.com | 📞 +91-9493927092

Summary

Results-driven DevOps Engineer with 4.2 years of experience in automating cloud infrastructure and optimizing CI/CD workflows. Skilled in AWS, Kubernetes (EKS, AKS), Terraform and GitOps. Passionate about improving deployment efficiency and enhancing system reliability.

Certifications

Certified Kubernetes Administrator (CKA) CNCF Verify	Aug 2025	Certified Kubernetes Application Developer CNCF	August 2024
---	----------	---	-------------

Experience

CodeWave Technology Sdn bhd (Payroll: Hexagon Technology) Sr DevOps Engineer	Malaysia, Remote March 2023 - Present
--	--

- Deployed applications across dev, staging and production using CI/CD pipelines on Amazon EKS, ensuring consistent and reliable releases.
- Designed end-to-end Kubernetes manifests (Deployments, Services, Ingress, ConfigMaps, Secrets, PVC/PV, RBAC, ServiceAccounts) and reusable Helm charts, reducing manual errors by 30% and accelerating microservice onboarding.
- Upgraded EKS clusters to newer Kubernetes versions, including deprecated API migrations, achieving zero-downtime rollouts.
- Provisioned and managed scalable cloud infrastructure using Terraform. Administered Amazon RDS (MySQL) with backups, read replicas and high availability.
- Troubleshoot EKS issues (pod failures, resource constraints, ingress errors, service disruptions), maintaining 99.9% cluster uptime and leveraging AI-driven insights to optimize system performance and reliability.
- Implemented monitoring and alerting using Prometheus and Grafana, reducing MTTR by 40% and improving observability.

Tiger Analytics Software Engineer	Chennai May 2022 - December 2022
---	-------------------------------------

- Designed and automated CI/CD pipelines in Azure DevOps to enable seamless deployments across dev, testing and production environments.
- Provisioned and managed Azure infrastructure including storage, compute and networking using Infrastructure as Code with Terraform and Azure DevOps pipelines, ensuring consistency and scalability.
- Implemented monitoring and alerting with Azure Monitor and Log Analytics to maintain system health, performance and reliability.

Key Skills

- **Container Orchestration:** Kubernetes, Docker, Amazon EKS, Helm
- **CI/CD & GitOps:** GitHub Actions, ArgoCD, Jenkins
- **Infrastructure as Code :** Terraform
- **Version Control:** Git, GitHub, GitLab
- **Cloud Platforms:** AWS, Azure
- **Monitoring & Observability:** Prometheus, Grafana, ELK Stack, Robusta
- **Programming & Scripting:** Linux, Shell Scripting, Python
- **AI-Augmented Engineering:** Enhancing systems with AI-driven automation and insights

Education

Andhra University Computer Science	M.Tech • 8.6 GPA Oct 2019 - Dec 2021	Sri Venkateswara College of Engineering Computer Science	B.Tech • 7.3 GPA Sept 2012 - June 2016
